

# **SAFETY ALERT**

**During these unprecedented and chaotic times, we would like to remind residents to be mindful and aware when using the stove and oven. Please be mindful, especially when feeling tired, when actively cooking. Accidental fires have occurred within the complex when residents fell asleep while cooking.**

**In addition, jurisdictions around the United States are advising individuals NOT to microwave facemasks. Facemasks can burn and catch fire within microwaves.**

**Residents are further advised to be EXTREMELY cautious when using cleaning products. Mixing certain chemicals together may cause toxic fumes and poison individuals.**

**PLEASE STAY SAFE!**
